Our Service

DHT provide a total services solution for all your needs.

- Lighting
- Access
- Fire alarm
- Data
- Power
- Alarms

Quality

We are relied upon by top names again and again because our work is second to none.

Design

As an established services contractor, our clients immediately have our wealth of design experience at their disposal, including C.A.D, Autocad and full lighting design in relux. This provides the assurance that all processes of the design can be viewed easily with absolute clarity and understanding.

Efficiency

We have top staff and the latest technology to remove any risk from installations. We agree a plan in advance with clients and always deliver it as arranged. Once we are engaged clients can relax safe in the knowledge that we will take care of all aspects of installing to precise requirements.

Experience

You can't fake experience, we have 20 years working knowledge in this field and have never failed to delight clients who are safe in the knowledge that all our work/ services are certified and installed to the latest regulations.

Value

Despite the high quality of our work, we are extremely competitive on price, mainly because we operate on a no wastage and low-overhead business model. We also offer the flexibility of being able to work on projects, not just on a local basis, but nationally, whilst maintaining value for money and consistency by guaranteeing the same design and services team.
